

**Empowering Responsible Care Leadership:
Advancing Chemical Safety and Security for Stronger Communities**

IN CONJUNCTION WITH

**OCTOBER 20 - 23, 2025
INDONESIA**

WELCOME MESSAGE

Responsible Care Indonesia is honored to host the 18th Asia Pacific Responsible Care Conference (APRCC) in conjunction with the Responsible Care Leadership Group (RCLG) Meeting 2025 in Indonesia.

This conference arrives at a critical moment when the chemical industry is undergoing a profound transformation—driven by the global imperatives of climate action, responsible chemical management, and the pursuit of sustainable value chains. The Asia Pacific region, as a dynamic hub of industrial growth, innovation, and environmental complexity, demands collaborative platforms where both industry and policy can evolve together toward measurable progress.

Responsible Care Indonesia, as a national steward of the Responsible Care initiative under the International Council of Chemical Associations (ICCA), is committed to advancing this mission. Hosting APRCC and RCLG 2025 reflects not only our readiness to facilitate technical and policy dialogue, but also our strategic ambition to elevate the region's contribution to global sustainability and safety frameworks.

The APRCC has consistently served as a regional mechanism for capacity building, peer learning, and regulatory convergence. Meanwhile, the RCLG plays a pivotal governance role in shaping Responsible Care's global direction—aligning cross-border commitments, monitoring performance, and fostering accountability among national associations.

Through this conference, we aim to strengthen regional alignment with the Responsible Care Global Charter, accelerate knowledge transfer on emerging issues such as circularity, climate disclosure, chemical safety, and ESG compliance, and cultivate a resilient and future-ready chemical industry in Asia Pacific.

We look forward to the support and participation of global and regional stakeholders in making this conference a defining milestone for sustainable industrial leadership.

Best regards,
Edi Rivai
Chairman
Responsible Care Indonesia

“ Message from The APRO Chairman

First and foremost, I would like to extend my heartfelt gratitude to Responsible Care Indonesia for hosting us in this stunning venue here in Indonesia. Your efforts have provided the perfect backdrop for our collective mission to advance Responsible Care in the Asia-Pacific region. It is my great honor to welcome you to the 2025 Asia Pacific Responsible Care Conference (APRCC). This event is not just a gathering—it is a call to action, an opportunity to unite our efforts and drive transformative change in the chemical industry across the Asia-Pacific region. The Asia Pacific Responsible Care Organization (APRO) stands as a beacon of collaboration and innovation, bringing together leaders who share a common commitment to health, safety, and environmental sustainability. As APRO Chairperson, I am deeply proud of the strides we have made, but I am equally aware of the challenges ahead.

Chemical products are indispensable to modern society, driving innovations that improve lives and progress. However, with this power comes responsibility—the responsibility to manage risks, protect our communities, and safeguard our planet. Responsible Care is not just a voluntary initiative—it is a promise to uphold the highest standards of safety and environmental stewardship. Today, global challenges such as climate change and resource depletion demand bold action. Initiatives like carbon neutrality and the circular economy are reshaping industries, and the chemical sector must lead the way. Responsible Care provides the foundation to reduce environmental footprints, enhance resource efficiency, and drive the transition to a circular economy. These challenges are opportunities to innovate and redefine the chemical industry's role in society. Despite budget pressures, our commitment to Responsible Care must remain steadfast. This is a time when our resolve is tested, and through shared dedication, we will emerge stronger and more impactful.

We work closely with the International Council of Chemical Associations (ICCA), aligning Asia-Pacific's strengths with global initiatives such as the Responsible Care Global Charter and the Global Product Strategy. Through active engagement with the ICCA Responsible Care Leadership Group (RCLG), we ensure our region's voice is heard and our achievements recognized globally. We are leaders shaping the future of Responsible Care. I believe this conference will become a catalyst for action. Through sessions and workshops, we will uncover solutions, share groundbreaking practices, and forge connections. I urge each of you to approach this event with passion and determination. Let us inspire one another and leave with a renewed sense of purpose. As we gather here in Indonesia, let us reaffirm our commitment to Responsible Care—not as an obligation, but as a principle guiding our actions and shaping our legacy. Every effort counts, every voice matters, and every step brings us closer to a sustainable future.

Finally, I would like to express my gratitude to the organizers, sponsors, speakers, and participants whose dedication has made this conference possible. Let us seize this moment and make the 2025 APRCC a milestone in our journey toward sustainability. Welcome to Indonesia! Let's make this conference a resounding success!

Best regards,
Yoshizumi Sasaki
**Chair of Asia-Pacific Responsible Care
Organization (APRO)**

ABOUT APRCC

The Asia Pacific Responsible Care Conference (APRCC) is a pivotal event that unites chemical industry leaders, safety experts, and environmental advocates to promote sustainable practices and corporate responsibility across the Asia-Pacific region. This event marks the first in-person gathering of the Responsible Care community in the Asia Pacific region since the onset of the COVID-19 pandemic. As such, it holds special significance as a long-awaited opportunity for members to reconnect, engage in meaningful dialogue, and strengthen regional collaboration. As we look ahead to the rescheduled conference in 2025, it presents a prime opportunity to reaffirm our commitment to Responsible Care initiatives, share best practices, and collaboratively address the evolving challenges in health, safety, and environmental stewardship within the chemical industry. The 18th APRCC will serve as a platform to strengthen partnerships, foster innovation, and drive continuous improvement in sustainable operations throughout the Asia-Pacific region.

The Responsible Care Leadership Group (RCLG), operating under the International Council of Chemical Associations (ICCA), oversees the global Responsible Care initiative, uniting representatives from national chemical associations and manufacturing companies worldwide. The RCLG's mission is to promote continuous improvement in environmental, health, safety, and security performance within the chemical industry. By facilitating the exchange of best practices and monitoring adherence to the Responsible Care Global Charter, the RCLG ensures that member organizations uphold the highest standards of corporate responsibility and sustainability. Their leadership is instrumental in guiding the industry's commitment to safe chemicals management and sustainable development.

ABOUT RCLG

PURPOSES

- To promote continuous improvement in environmental, health, safety, and security performance within the chemical industry through the Responsible Care initiative.
- To facilitate the exchange of best practices and experiences among Asia-Pacific countries in implementing Responsible Care programs, enhancing regional collaboration.
- To align industry efforts with global sustainability goals, including the United Nations Sustainable Development Goals (SDGs) and national commitments to net-zero emissions.
- To strengthen the implementation of the Responsible Care Global Charter by sharing progress, challenges, and strategies among member associations and companies.
- To engage stakeholders, including government agencies, NGOs, and the public, fostering transparency and trust in the chemical industry's commitment to responsible practices.

AUDIENCES

This conference is expected to bring together a diverse group of stakeholders actively engaged in the implementation and advancement of Responsible Care across the Asia-Pacific region, including:

- Senior executives, sustainability officers, and operational leaders from chemical, petrochemical, and related industries.
 - Representatives from national and international chemical industry associations, particularly those affiliated with the International Council of Chemical Associations (ICCA).
 - Government regulators and policy makers responsible for environmental, health, safety, and chemical management frameworks.
 - Academics and researchers involved in chemical safety, sustainable technology, and industrial innovation.
 - Civil society organizations, NGOs, and advocacy groups working in the fields of environmental protection and public health.
 - Members of the Responsible Care Leadership Group (RCLG) and regional Responsible Care coordinators.
 - Media professionals, industry communicators, and public affairs representatives covering industrial responsibility and ESG issues.
- 

FALL MEETING

ICCA - RESPONSIBLE CARE LEADERSHIP GROUP (RCLG)

ICCA - Responsible Care Leadership Group (RCLG) Fall Meeting is a forum where industry leaders discuss the progress of Responsible Care® implementation, review performance data (such as safety and environmental KPIs), develop global assessment tools, and coordinate training or capacity-building efforts—especially in developing regions—to improve chemical safety, sustainability, and stakeholder engagement worldwide.

AGENDA

October 19 – 22, 2025

Registration for ICCA - RCLG Meeting

Day 1: October 20, 2025

09:00 – 17:00 ICCA - RCLG Meeting

17:30 – 19:30 Cocktail

19:30 – 21:30 APRO Meeting

Day 2: October 21, 2025

09:00 – 16:00 ICCA - RCLG Meeting

18:00 – 19:00 Kecak Dance Pura Uluwatu (Assemble 16.30 at Lobby Hotel) - TBD

THE 18TH APRCC

PLENARY SESSIONS

Session 1: Responsible Care® Leadership and Continuous Improvement

This plenary session on "Responsible Care® Leadership and Continuous Improvement" will focus on the importance of Responsible Care® leadership and practices in the chemical industry and the role of continuous improvement in ensuring the safe and sustainable operation of chemical facilities. The session will bring together industry experts and thought leaders to share best practices, experiences, and innovations in Responsible Care® and continuous improvement.

Session 2: Global Chemical Management

The session on Global Chemical Management will bring together 4 esteemed panelists to discuss the latest developments and challenges in managing chemicals globally. The panel will explore the complexities of chemical management, including regulatory frameworks, industry best practices, and emerging trends. The session will provide a platform for panelists to share their expertise and experiences, and for attendees to engage in a dynamic discussion.

Session 3: Environment, Social and Governance (ESG)

The chemical industry is increasingly expected to prioritize Environment, Social, and Governance (ESG) considerations in its operations and decision-making processes. This session will explore the importance of ESG in the chemical industry, including its impact on sustainability, reputation, and long-term success. Our panelists will discuss best practices, challenges, and opportunities for integrating ESG into business strategies and operations.

Session 4: Plastic Circularity: Innovations for a Sustainable Industry

The world is facing a plastic pollution crisis, and the chemical industry has a critical role to play in finding solutions. This plenary session will focus on innovations and strategies for achieving plastic circularity, including designing out waste, promoting recycling, and developing sustainable plastic materials. Our speakers will share the latest developments and breakthroughs in plastic circularity, and discuss the opportunities and challenges of implementing these innovations in the industry.

PLENARY SESSIONS

Session 5: Chemical Safety Management: Strategies for a Safer Future

Chemical safety management is a critical aspect of the chemical industry, requiring a proactive and multi-faceted approach to prevent accidents, protect human health, and minimize environmental impacts. This session will bring together 4 esteemed panelists to discuss best practices, challenges, and innovations in chemical safety management. The panel will explore strategies for enhancing chemical safety, including process safety, risk assessment, and emergency preparedness

Session 6: Chemical Security Management in Industry

Chemical Security Management is a critical aspect of the chemical industry, focused on preventing and mitigating risks associated with deliberate acts of harm, theft, or sabotage of chemicals and chemical facilities. The importance of Chemical Security Management cannot be overstated, as the consequences of a security breach can be catastrophic, resulting in widespread disasters, harm to people and the environment, and significant economic losses. Chemical Security Management aims to prevent intentional acts of harm, such as terrorism, theft, or sabotage, that could compromise the safety and security of chemicals and chemical facilities. In this session, speakers will share their respective experiences including challenges and opportunities.

Session 7: Development and Innovation in Sustainable Chemistry

The chemical industry is undergoing a significant transformation, driven by the need for sustainability and digitalization. This session explores the latest developments and innovations in sustainable chemistry, including the role of digitalization in driving safety, efficiency, reducing waste, and improving environmental performance. The chemical industry plays a vital role in achieving the UN Sustainable Development Goals (SDGs). Some of key SDGs that chemical industry can contribute such as developing sustainable infrastructure.

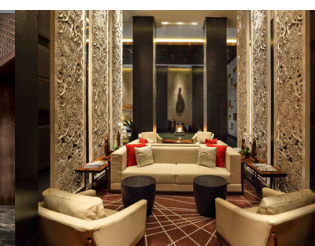

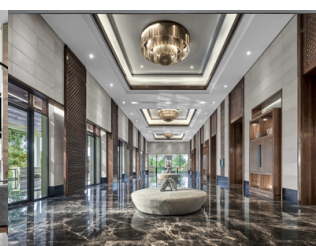

VENUE

SOFITEL NUSA DUA BEACH RESORT, INDONESIA

Overview Sofitel Hotels & Resorts

Sofitel Nusa Dua Beach Resort is a 5-star beachfront luxury resort located in the prestigious Nusa Dua area, offering a blend of elegant French design and traditional hospitality. With its direct access to the Nusa Dua Convention Center (BNDCC), 17 versatile meeting rooms, and professional event support, the resort is an ideal venue for international conferences, high-level meetings, and large-scale events. Its strategic location near Ngurah Rai International Airport, combined with world-class amenities, high-speed internet, and a serene beachfront setting, makes it perfectly suited for hosting global delegates in both comfort and style.

SPONSORSHIP PACKAGES

PLATINUM PACKAGE

Minimum sponsorship of USD 10,000.00 will get following exclusive benefits:

- ✔ An opportunity to be Speakers / Panelists in 2 (two) conference sessions (15 minutes each session), including a dedicated 3-minute segment for company introduction or promotional remarks.
- ✔ One (1) complimentary guest room (single or double occupancy) for a 2-night stay at the conference venue (Check-in: 21 October | Check-out: 23 October 2025).
- ✔ Prominent placement of the company logo on all official promotional materials, including stage backdrops, banners, and the event website.
- ✔ The right to distribute promotional materials throughout the conference venue.

PREMIUM PACKAGE

Minimum sponsorship of USD 5,000.00 will get following exclusive benefits:

- ✔ An opportunity to be a Speaker / Panelist in 1 (one) conference session (15 minutes), including a dedicated 3-minute segment for company introduction or promotional remarks.
- ✔ One (1) complimentary guest room (single or double occupancy) for a 2-night stay at the conference venue (Check-in: 21 October | Check-out: 23 October 2025).
- ✔ Prominent placement of the company logo on all official promotional materials, including stage backdrops, banners, and the event website.
- ✔ The right to distribute promotional materials throughout the conference venue.

DIAMOND PACKAGE

Minimum sponsorship of USD 3,000.00 will get following exclusive benefits:

- ✔ An opportunity to be a Speaker / Panelist in 1 (one) conference session (15 minutes), including a dedicated 3-minute segment for company introduction or promotional remarks.
- ✔ One (1) complimentary guest room (single or double occupancy) for a 1-night stay at the conference venue (Check-in: 21 October or 22 October 2025).
- ✔ Prominent placement of the company logo on all official promotional materials, including stage backdrops, banners, and the event website.
- ✔ The right to distribute promotional materials throughout the conference venue.

SPONSORSHIP PACKAGES

IMPORTANT NOTES

- The decision regarding on the sponsorship commitment should be made no further than September 20, 2025 with the minimum down payment of 70% of agreed amount sponsorship.
- The additional of 30% should be made by one month before the event, September 20, 2025.
- Logo and company name ready to be printed on banner, poster, and bloc note should be hand over to the Organizing Committee no further than September 20, 2025.
- Sponsorship fund could not be reclaimed due to any cancellation made by the sponsor.
- Registration on sponsorship should be made by transferring fund to:

| | |
|-----------------------------|--------------------------------------|
| Bank Name | : Bank Negara Indonesia (BNI) |
| Beneficiary | : Responsible Care Indonesia |
| Account Number (IDR) | : 0276207874 |
| Account Number (USD) | : #2986298691 |
| Swift Code | : BNINIDJA |

- This proposal is legal only after signed by the Chairman of the Organizing Committee and genuine stamp of Organizing Committee (not photo copy).
- Every company who accepting this proposal should give a receipt or accepting note legalized with company stamp.

SPONSORSHIP CONFIRMATION FORM

RCLG FALL MEETING & 18TH APRCC 2025

Name :
Position :
Represent :
Company Address :

Hereby agree to participate in **the 18th Asia Pacific Responsible Care Conference (APRCC) in conjunction with the Responsible Care Leadership Group (RCLG) Fall Meeting** on 20–23 October 2025, at Sofitel Nusa Dua Beach Resort, Nusa Dua, Indonesia as sponsor with the value of:

- ☐ Sponsorship Platinum Package: USD 10,000.00
- ☐ Sponsorship Premium Package: USD 5,000.00
- ☐ Sponsorship Diamond Package: USD 3,000,00

The agreed media of sponsorship is as listed in package.

Payment will be made:

100 % after the signing of this agreement

Method of Payment:

Payment should be made by transferring fund to:

Bank Name : Bank Negara Indonesia (BNI)
Beneficiary : Responsible Care Indonesia
Account Number (IDR) : 0276207874
Account Number (USD) : #2986298691
Swift Code : BNINIDJA

If the payment is not finalized by the deadline, the committee reserves the right to determine the size, quantity, and type of promotional materials according to received payment.
